Making Space	Green	Organisation	Yellow	Co-ordination	Green	Confidence	Green

TECHNICAL TACTICAL	<p>Strengths: Good first touch and pass weight. Mani is good at finding and moving into space. Understands his role in the team and the positions we ask him to play in.</p>
	<p>Development Goals: Sometimes Mani can hold onto the ball a little bit too long so we are looking for him to start releasing the ball slightly earlier.</p>

PSYCHOLOGICAL	<p>Strengths: Mani is confident and seems very resilient. He is competitive and expects the same of his team mates.</p>
	<p>Development Goals: We feel that Mani sometimes takes coaching comments as criticism. This may not be the case and we may of misread this.</p>

PHYSICAL	<p>Strengths: Speed and endurance are Mani’s biggest strengths. He is tall and imposing to his opponents. His ball striking is excellent and has developed really well in a relatively short time.</p>
	<p>Development Goals: Not much to improve on in this corner. Maybe a little braver in the tackle.</p>

SOCIAL	<p>Strengths: Mani is a popular member of the squad and a pleasure to coach. Always well behaved and will ask questions. His on-field communications are good and effective.</p>
	<p>Development Goals: Not much to improve on in this corner also. Maybe to work on not getting too frustrated with his teammates at times.</p>
