TECHNICAL TACTICAL	<p>Strengths: Consistent good first touch and control. Understands passing angles and is always on the move. Good weight and accuracy of his passing.</p>
	<p>Development Goals: Occasionally runs out of position but he does understand the need to return to his midfield role. As with many players of this age, making space for others is an area to develop.</p>

PSYCHOLOGICAL	<p>Strengths: A very strong corner for Aidan. Very intelligent and understands the majority of instructions and will ask questions of he doesn't. Very resilient and organised, hence why he's captain.</p>
	<p>Development Goals: The only area for improvement is his confidence, which will come with age and experience.</p>

PHYSICAL	<p>Strengths: Another strong corner. Very fit and driven. Drives the team up and down the pitch. Excellent at delaying the opposition and putting in a tackle when needed.</p>
	<p>Development Goals: Aiden's speed is the only area to improve but that is attached to the Psychological corner and will develop as he gains more playing experience.</p>

SOCIAL	<p>Strengths: Aiden is our captain and communicates well with his teammates. Always organising and talking throughout games and training. Well behaved and always respectful to everyone.</p>
	<p>Development Goals: As mentioned in the Psychological corner, Aiden's confidence will improve with experience.</p>
