TECHNICAL TACTICAL	<p>Strengths: Very consistent good first touch and control. A very technical and skilful player. He can impact a game in a big way at any time. No other player is like him in the league.</p>
	<p>Development Goals: Needs to understand when and where to take risks with his creativity.</p>

PSYCHOLOGICAL	<p>Strengths: Has the confidence to ask questions and try new things.</p>
	<p>Development Goals: To be more confident when we ask him to play higher up the pitch. He can definitely play there with his creativity but he needs to believe this.</p>

PHYSICAL	<p>Strengths: Baillie seems to glide across the pitch, with and without the ball. Good movement to create passing angles and is quick off the mark.</p>
	<p>Development Goals: As with a lot of players at this age, he needs to work on fitness but that will come as he develops.</p>

SOCIAL	<p>Strengths: Baillie is a popular person and isn't afraid to ask questions of the coaches. He communicates well on the pitch.</p>
	<p>Development Goals: He is definitely "one of the lads" and brings humour to the group but sometimes its not constructive. I'd like to see Baillie focusing more on football at training.</p>
