Observation of Delivery

Planning

* appropriate (in context) activities on SP.
 However - not sure what your session priority is, WHO are your primary focus players etc.

* Think about organising player arrival activities as they arrive to save time for coaching

Organisation

* Game related Practice 4v2
 Good repetition of practice.
 Organised space/equipment/personnel appropriately

* Rules? - off sides?

Management

* Managed the activity & players effectively.

* Think of how the practice is going to develop to challenge the attacking & Def players.

Observation

Q * What did after changing the practice tell you about the attacking & when out of possession

* Game - Good observation of Primary players.

Communication

* Good clear concise instruction.

* Very good coaching manner/style

* Be a bit more precise with technical & technical instruction with individuals & units.
