TECHNICAL TACTICAL	<p>Strengths: Jack has a very good first touch and good weight of pass. He understands what we ask of him and implements it well. He understands the principles of in and out of possession.</p>
	<p>Development Goals: A strong corner for Jack as he has a good football brain and technically good. Once we see him in competitive matches, we can then see how he interprets tactical instructions.</p>

PSYCHOLOGICAL	<p>Strengths: Jack seems to be a confident person and isn't afraid to ask questions. He is resilient and competitive. He is brave in the tackle and seems keen to learn and improve.</p>
	<p>Development Goals: Jack can be quiet at times so we'd like to see him express himself a little more. This will come though once he has been with the squad a bit longer. No weakness observed.</p>

PHYSICAL	<p>Strengths: Jack strikes the ball really well and has a good weight of pass. He has an amazing throw in which we will utilise going forward. He is strong in one on one situations.</p>
	<p>Development Goals: As with most of the squad, general fitness but this can only really be judged following analysis of him during competitive matches to come.</p>

SOCIAL	<p>Strengths: Jack has settled into the squad really well and gets along with the players. He communicates well with the coaches and players. Likes a laugh and is respectful to everyone.</p>
	<p>Development Goals: A strong corner for Jack. The only area for improvement is his on-field communications but I think that will improve as he continues to get used to the group.</p>
